Shovel Headed Kill Machine (Live At Wacken 2008)

Exodus

Tank treads crushing over piles of broken bones
Siege engine revving and coming to atone
Poisonous black smoke billows from its eyes
Unholy war machine can't be compromised
Fueled by the corpses feted fleshed
Never turning back forward to the death
Its only mission is killing everything
It's the shovel headed kill machineHere to sacrifice
Infernal hate device
Satan's go between
Knee and die before the
Shovel headed kill machineSo inhuman you don't speak its name
Its artillery sets the world aflame
Mechanical demon rolling 'cross the sand
Blood stained thing scorching black the holy land
Skin made of iron, heart made of steel
Lubricated by the blood beneath its wheels
Reclaiming the world for its king
It's the shovel headed kill machineHere to sacrifice
Infernal hate device
Satan's go between
Knee and die before the
Shovel headed kill machine
