

# Without U

Jesse McCartney

I like when you whisper softly  
Things only I should hear  
That lead me on  
Go on I like the way you smile at me  
Make me feel like nothin'  
Can go wrong  
Go on Tell me this will last forever  
Don't you ever leave I don't wanna be without you  
Dream without you  
Walk without you  
Talk without you, baby  
I never take a chance without you  
Dance without you  
Nothing is the same without you, baby  
And I could never deal without you  
Heal without you  
Begin without you  
End without you  
Baby, I'm in need  
I can't breathe  
No, I don't wanna be  
Without you I love when your eyes wash over me  
With a look only I can tell  
Whats on your mind  
Go on I love the way that you find me  
Whenever I've lost my way  
You're just in time  
Hey hey hey yeah Baby we've got something started  
Say we'll never stop I don't wanna be without you  
Dream without you  
Walk without you  
Talk without you, baby  
I never take a chance without you  
Dance without you  
Nothing is the same without you, baby  
And I could never deal without you  
Heal without you  
Begin without you  
End without you

Baby, I'm in need  
I can't breathe  
No, I don't wanna be  
Without you I'll lock up my heart  
And throw away the key  
If that's what it takes  
To keep you with me You open the door  
To all that's good in me  
I can't deny the truth  
That I could never be without you I don't wanna be without you  
Dream without you  
Walk without you  
Talk without you, baby  
I never take a chance without you  
Dance without you  
Nothing is the same without you, baby  
And I could never deal without you  
Heal without you  
Begin without you  
End without you  
Baby, I'm in need  
I can't breathe  
No, I don't wanna be  
Baby, I'm in need  
I can't breathe  
No, I don't wanna be  
Without you
