

# I Think I

## Alien Sex Fiend

The pennies on my eyes have just been lifted  
Into drive, my gear's been shifted  
You're blinded while I cruise along  
And the radio plays that familiar songI-I-I-I I think I love you  
Oh! the pain  
I-I-I-I I think I love you  
With all of my brainSince I met you girl my heart's on fire  
Endless days and nights you lead me to perspire  
My pulse is beating fast, my pressure's getting higher  
It's liable to explode in fountains of desireWhen I met you girl I was feeling blue  
Hanging around in life's ugly zoo  
Then you picked me up and you dusted me down  
When you ain't around girl - it's no funI-I-I-I I think I love you  
Oooooh! the pain  
I-I-I-I I think I love you  
With all of my brainI think - I think - I think  
I think - I think - I think I love you  
I think I love you.
