## **Acceleration 5000**

## **Blue Meanies**

Got to get got to get energy Now get your energy Got to find got to find a frequency Now find yoursAnd if I have to have to slow down Slowly push my weight around And if I have to dig my tracks Into the groundGot to get got to get energy Now get your energy Got to find got to find an urgency Yeah, find yoursAnd if I have to have to slow down Slowly push my weight around And if I have to dig my tracks Into the groundI see you stand frightened You're like your dog Frightened Your stomach pulls Tightens I think you're mineMove like machine momentumInto the ground
