

I'll Never Let You Down

[Miles Graham](#)

I'll never let you down today my brother, feet's gonna hit the
Ground, they way, they shoulda
I'll never let you down, no way my sister. The world might put you
down but I'll never let ya They say ya gotta do ten thousand hours just to earn yourself success
Well I'm rackin' up a million now, doc says I'm a serious case
Some people take pride in saying that they've got no regrets
I got quite a few myself, throw in all those mistakes I know that I'm not perfect and nether are you now
I get my hands all dirty and I will put you down But I'll never let you down today my brother, feet's gonna hit
the ground the way they
shoulda. No I'll never let you down no way my lover. The world might put you down. But
I'll never let ya Candle burns very hard both ends but can you tell me
when I get paid?
I've been defeated, and cheated and lost
I was not particularly good at my grades
Some people get higher than they ever would expect
Need a parachute myself
Be fallin' down so quick I know that I'm not perfect and nether are you now
I get my hands all dirty and I will put you down But I'll never let you down no way my brother
Luck's gonna turn around the way it should a
I'll never let ya down no way my lover
The world might put ya down
But I'll never let ya I give you my word, I won't hold back won't let you down
