

# Once to Every Heart

**Jimmy Durante**

Once to every heart  
Love will find its way  
Once to every lonely dreamer  
Love will come to stay

Whether you are eight years old  
Or even ninety-two  
Someone in this world is meant  
Especially for you

So when love comes your way  
Fling your windows wide  
Make her welcome, give her shelter,  
Keep her warm inside

Hold her always near to you  
And dear to you alone  
Be her lover, be her friend  
And you will find the rainbow's end  
It always happens  
Once to every heart.
