

Talk Me Down

Willy Mason

When you talk me down,
I go down, I go down, I go down
When you talk me down, I go down

When you lift me up,
I jump, I jump, I jump,
When you lift me up, I jump

When the road goes on,
You sail, you sail, you sail
When the road goes on, you sail

When it cracks and burns,
You bail, you bail, you bail,
When it cracks and burns, you bail

But it's just a passing phase,
Oh my days, oh my days,
My foundation's started to shake,
Scared that it might break

How did I come this way,
Come this way, come this way
But it's just another page,
My book will have it's day

Why can't I see when you're talking to me?
Why can't I see when you're talking to me?
Why can't I see when you're talking to me?
Why can't I see when you, see when you

Talk me down,
I go down, I go down, I go down,
When you talk me down, I go down

When you lift me up,
I jump, I jump, I jump
When you lift me up, I jump

When the road goes on,

You sail, you sail , you sail
When the road goes on, you sail

When it cracks and burns,
You bail, you bail, you bail,
When it cracks and burns, you bail
