

Tee Shirt

The Fault In Our Stars

In the morning when you wake up
I like to believe you are thinking of me
And when the sun comes through your window
I like to believe you've been dreaming of me
Dreaming I know
'Cause I'd spend half this morning
Thinking about the t-shirt you sleep in
I should know
'Cause I'd spend all the whole day
Listening to your message I'm keeping
And never deleting
When I saw you,
Everyone knew
I liked the effect that you had on my eyes
But no one else heard
The weight of your words
Or felt the effect that they have on my mind
Falling I know
'Cause I'd spend half this morning
Thinking about the t-shirt you sleep in
I should know
'Cause I'd spend all the whole day
Listening to your message I'm keeping
And never deleting
