Doubledecker

Liquido

Left abandoned and abused

Maybe I'm so confused

Take my chance and do my best

Better then the whole restNever change it's just too late

We can't be friends well think again now

I will realize my plan doing what I canNever gonna chance never gonna chance Fix me right and then

We'll see what's coming on now

Take a little bit of this and that Take a little bit of supersonic banners make me so sad Supermega tony vega like a beggar like on an easy chair

I like it when you're so aware

Supersonic games supersonic games

Who's to blame who's to b b b blameBig boy double decker makin' my heart go quicker It's a bad game-dreadful like migraineTo the ladies

I feel I'm sleepin' through the cracks

Two times ryhmin' on this track

Laughin' bout the thing we did

Another day so uninspiredNever gonna chance never gonna chance

Fix me right and then

We'll see what's coming on now

Take a little bit of this and that Take a little bit of supersonic banners make me so sad Supermega tony vega like a beggar like on an easy chair

I like it when you're so aware

Supersonic games supersonic games

Who's to blame who's to b b b blameBig boy double decker makin' my heart go quicker

It's a bad game-dreadful like migraine
