

Purple Heart

Puddle Of Mudd

As I sit and wait
I can't rest my head
I light my fire
As I smoker another cigarette You want everything
But you break apart
There's no compromise
Inside your purple heart
Inside your purple heart
Inside your purple
Psycho purple
Inside your purple heart I smoke another cigarette
Inhale it into my lungs
Yes it takes my life away
And then it turns around Oh, I'm gone into the next life
and far beyond
Oh, I'm gone into the next life
and far beyond
