Please, please, please, please

Won't you give your love to me, me?

Please, please, please, please

Won't you give your love to me, me?Please, please, please, please, please

Won't you give your love to me, me?

Please, please, please, please

Won't you give your love to me, me? Are you gonna give me your love?

Love would be enough

Are you gonna give me your love?

Love would be enoughAre you gonna give me your love?

Love would be enough

Are you gonna give me your love?

Love would be enoughWe need each other

Come together as one

Love would be enoughPlease, please, please, please, please

Won't you give your love to me, me?

Please, please, please, please

Won't you give your love to me, me? Are you gonna give me your love?

Love would be enough

Are you gonna give me your love?

Love would be enoughAre you gonna give me your love?

Love would be enough

Are you gonna give me your love?

Love would be enoughWe need each other

Come together as one

Love would be enough

We need each other

Come together as one You got to live

You got to die

So what's the purpose

Of you and I?You want some passion

You can receive

And there ain't no question

In this I believeYou got to live

You got to die

So what's the purpose

Of you and I?You want some passion

You can receive

And there ain't no question

In this I believeYou got to live
You got to die
So what's the purpose
Of you and I?You want some passion
You can receive

And there ain't no question
In this I believeYou got to live

You got to die

So what's the purpose

Of you and I?You want some passion

You can receive

And there ain't no question

In this I believeYou got to live

Oh, you got to liveWe need each other

Come together as one

Love would be enoughWe need each other

Come together as one

Love would be enough

Love would be enoughAre you gonna give me your love?

Are you gonna give me your love?Love, love, love

Love, give me love

Love, love, loveLove, give me love

Love, give me love

Love, give me loveAre you gonna give me your love?

Give me love

Love, give me love
