

Fear of Falling

Golden Smog

I am not a shadow
I am flesh and blood
Meet me in the middle
If you think you could
If you think you could If I'm walking in the dark
I'm whispering
If I'm walking in the dark
I'm whispering
Follow my whisper
And I will see you through If I make three wishes
One is not to fall
The other two will follow
Beyond the wall If the world spins faster
On my knees I crawl
If the world spins faster
On my knees I crawl
On my knees I crawl
Straight on back to you If I make three wishes
One is not to fall
The other two will follow
Beyond the wall I am not a shadow
I am flesh and blood
Meet me in the middle
If you think you could
If you think you could
I will see you through
If you think you could
I will see you through
