

Living for the Weekend

Hard-Fi

Oh, I've been working a week, I'm tired
Yeah, I've been working a week and I'm
Just living for the weekend Hey hey, got some money I just got paid
Got some money and I can't wait
At six o'clock I'm out of here Out there tonight is the night of my last
Got my name on
Run down my street Adidas on my feet
I'm on fire Working all the time
Work is such a bind
Got some money to spend
Living for the weekend When it gets too much
I live for the rush
Got some money to spend
Living for the weekend Oh man, yeah, I've been working a week, I'm shot
Yeah, I've been working a week for what?
Just living for the weekend Ah shit, so my clothes are all counterfeit
So my name isn't on the list
No you can't come in, so go home boys Slip round the back look at that
There's a cracked toilet window
Drop to the floor covers us through the dork, I'm on fire Working all the time
Work is such a bind
Got some money to spend
Living for the weekend When it gets too much
I live for the rush
Got some money to spend
Living for the weekend Can you feel it?
Feel the pressure rising
Pushing down on me, oh Lord Pressure, pressure, pressure, pressure, pressure
Feel the pressure
Pressure, pressure, pressure, pressure, pressure I'm living for the weekend
I'm living for the weekend
I'm living for the weekend
I'm living for the weekend I'm living for the weekend
I'm living for the weekend
I'm living for the weekend
I'm living for the weekend Going out tonight, going out tonight
Baby, you and I are going out tonight Going out tonight, going out tonight
Baby, you and I are going out tonight Going out tonight, going out tonight
Baby, you and I are going out tonight
