Move On

Black Roots

I can't stay around much longer,
because I know you love another.
I can see it, in your eyes girl.
Deep down inside, It's a stormy stormy weather.
(stormy, stormy, stormy, stormy, stormy . . .)

So I'm gonna move one, move on, move on,
get up out of your life.
Girl, I've gotta move on, move on, move on,
get up out of your life.

Sittin' around with your false pretends.
making me look a fool,
among your friends, among your friends.
Even though I'll always love you girl,
But I can't stay around much longer to be hurt.

So I'm gonna move on, move on, move on,
get up out of your life.
Girl, I've gotta move on, move on, move on,
get up out of your life.

I just can't stay,
much longer to be hurt!
Because I couldn't share your love,
no matter what It's worth!
So fool I was, to fall in love with you.
The way your treating me,
I know It's impossible!

So I'm gonna move on, move on, ove on,
get up out of your life.
Girl, I've gotta move on, move on, move on,
get up out of your life.

Said I'm gotta move on, move on, move on,
get up out of your life.
