Kaleidoscope

Kate Havnevik

You cut me out in little stars And place me in the sky I lose my sense of timeYou know me How troubled I can be But through your kaleidoscope I let go'Cause you show me The world as it could be Through your kaleidoscope It's beautiful A tingle travels up my spine A cluster of colors and twine As we melt into wineYou know me How troubled I can be But through your kaleidoscope I let go'Cause you show me The world as it could be Through your kaleidoscope It's beautifulKaleidoscope Kaleidoscope Kaleidoscope
