

A Little More Time

Kite

Ohh, ohh, ohh, ohh, ooh, ohh, ooh
All I need to is to find out if I still really want to
Continue I don't know if it's too late
But I think it's the best thing we can do
For both me and you
You'll still be everything I know that I ever wanted
And everything that I ever needed
But it doesn't mean that this is the end
This is not the end
All I want is just a little more time
A little more time, just a little more time
All I want is some time
A little more time, a little more time, to make up my mind
It's not a bad thing I would never do anything to hurt you
And I know you really felt the same way to
I keep telling myself you didn't mean to
But I forgive you
For you hurt me but I really hope that one day you will see
The reason I breathe is, is for you and me
But it doesn't mean that this is the end
This is not the end
All I want is just a little more time
A little more time, just a little more time
All I want is some time
A little more time, a little more time, to make up my mind
All I wanted was some time to make up my mind
Ohh, and I do really hope that we can work it out
'Cause love like ours is hard to find
Ohh, ohh, ohh, ohh
All I wanted was some time to make up my mind, ohh
All I wanted was some time to make up my mind, ohh
