

# Tears of Rancour

## Dark Age

Deary, dubious existence,  
preposterous embodiment!  
Still sullen are the lights of life...  
Behold then my rancour, my tears  
soaking your surface bloody earth! Am I the one, the one I fear  
or am I the one and only atmosphere?  
I am lost, trapped in time...  
My life is a star which does not shine! Sumptuous elusive significance,  
preposterous embodiment!  
Time to believe!  
Into the hearts which have died,  
into the souls which have tried,  
into the tears we have cried  
The tears of rancour! Forever dying  
Forever trying Forever crying  
the tears of rancour!
