Proud

Reactive Black

I have waited so long
Each night and day
I wanted darkness to take you over
To take away false pride

Can't you feel - it's coming
Can't you feel - this pain
Can't you prove - your belief
Can't you see - why don't ya

- HATE -

Can't you feel - it's coming
Can't you feel - this pain
Can't you prove - your belief
Can't you see, so...

Everything's
Everything's dying
Remaining ourselves
Slowly dying
Dying, dying, dying

Down, down, down
Down into darkness
Right into the darkness

So warm, so sweet, so bitter...
Bitter... bitter... bittersweet

I love to be in darkness
Living in darkness
My darkness
So sweet, so sweet, so sweet
So bitter, bitter, bitter, bitter
Bittersweet
