

# Nowhere To Go But Up

## Stellar Kart

Running through every open door  
But always missing what we're looking for  
Searching everywhere to find it  
Never full, never satisfied  
Never really understanding why  
To win your life you have to lose it  
It's time we realize we're going down  
'cause falling's like flying til you hit the ground  
So meet me at the bottom  
Where we've got nowhere to go but up  
Nowhere to go but up  
It's the perfect place to start from  
Where we've got nowhere to go but up  
Nowhere to go but up  
We can find a way out of this  
'Cause I will fight and never call it quits  
So tell me are you fighting with me  
So what's it gonna be  
Is this the end or is it the beginning  
The beginning  
It's time we realize we're going down (going down)  
'cause falling's like flying til you hit the ground (hit the ground)  
So meet me at the bottom  
Where we've got nowhere to go but up  
Nowhere to go but up  
It's the perfect place to start from  
Where we've got nowhere to go but up  
Nowhere to go but up  
So just keep on going  
Keep on moving  
Don't let 'em keep you down  
Don't let 'em keep you down  
So just keep on trying  
Keep on fighting  
No one can keep us down  
No one can keep us down  
So meet me at the bottom  
We've got nowhere to go but up
