

# The View from Here

## Orchestral Manoeuvres In the Dark

Climb the mountain of your fear  
You should see the view from here  
Walk with me until we're done  
Take the long road, don't go homeAs the knife goes deeper in  
Nothing remains of where it's been  
Pull the petals one by one  
Finally they're all goneSliding backwards down the slope  
Clinging desperately too hope  
Watching you untie the rope  
Cast away, couldn't CopeClimb the mountain of your fear  
You should see the view from here  
Climb the mountain of your fear  
Easy said and done from here
