

# Broken Mirror

Travis

Each time you go away  
Part of you turns to gray  
The jingle of the chains  
Singled, rearrange  
Broken mirror steal my reflection  
Tell me what you see  
A hundred shattered eyes in the  
Looking glass staring back at me  
Inside, inside  
Inside tolls the bell

Outside all is well  
Broken mirror steal my reflection  
Tell me what you see  
A hundred shattered eyes in the  
Looking glass staring back at me  
I never wanna be alone  
I never ever wanna go home  
This I know for sure
