

Don't Say Goodbye

Goldfinger

I know the way that I have picked apart at you
And I know the way that I've had less importance too
Oh, let's try and find a way that we can work it out
Don't say what I can't bear to hear Don't say goodbye, yeah yeah
Just one more try, yeah yeah I know the way my insecurities can grate
I tend to judge myself against my perfect mate
So when I'm actin' strange don't give up on our hope
Don't say what I can't bear to hear Don't say goodbye, yeah yeah
Just one more try, yeah yeah Well, after all I'm telling you
Don't waste your time, I will be home soon Don't say goodbye, yeah yeah
Just one more try, yeah yeah So don't say goodbye, yeah
'Cuz I swear I'll try, yeah Well, after all I'm telling you
Don't waste your time, I will be home
After all I'm telling you
Don't waste your time, I will be home soon
