

You To Thank

Ben Folds

By the time the buzz was wearing off
We were standing out on the sidewalk
With our tattoos that looked like rings
In the hot Nevada sun Kids piled high, our moms and dads shook hands
In a party of Polaroid friends
Rented a pool and hired a band
Maybe they knew more then we knew
Cause they danced and drank
While we jumped off the deep end Oh I've got you to thank
For this Christmas came around
Yeah and everything was going to crap
And our moms and dads not a clue to be had
Yeah we put on a pretty good act
And they seemed to all need to believe it
So we danced and smiled and paddled hard beneath it Oh I've got you to thank
For this You can't say you've never had a doubt
And smoked it down but really wanted out By the time the buzz was wearing off
We were standing out on the sidewalk
With our tattoos that looked like rings
In the hot Nevada sun
And they won't fade I've got you to thank
