I Knew

The Reivers

Was it true that he had hard hands
Always pictured him hungry with a gun in his hand
Dirty boots and a steel frame
Will make it easy for the devil to stay home in the rain

I woke up to my favourite song
A song about heaven and where we went wrong
They carry me into the night
Till you go something you took the love of my life

And I knew
I knew love
And I knew
I knew love

But I never ever thought that I'd need someone like you
Your spirit shot bullets you were something new
And your eyes then you knew they cleared the dust from my brain
Heading down the highway doin' a 110

And I hope that this is the good in me
Just take a look behind at your destiny
His head in the sky a sweet sweet sound
The one I want to be around

And I knew
I knew love
And I knew
I knew love

Make it real and take off into dust
Don't look back and turn it into diamonds

And I knew
I knew love
