

Bad Girl

New York Dolls

Bad girl, a new bad girl, moved in on my block
I gave her my keys, I said don't bother to knock
I said, come on, you got what I need
I said, come on, don't make my heart bleed I'm beggin'
Oh, bad girl, whatcha tryin' to do?
What is the matter with you?
Bad girl, what are you tryin' to do? 'Cos I'm early in the morning, not too late at night
You're tryin' to tell me, everything is alright
Then you're gonna ask, am I gonna take it slow?
I said, don't you worry, there's no place I gotta go
My bad girl I'm walkin' to the corner, to buy me cafe
That's when I seen her, walkin' my way
And all dolled up, in her waitress' skirt
I said come on, don't make my heart hurt I'm beggin'
Oh, bad girl, whatcha tryin' to do?
What is the matter with you?
Bad girl, what are you tryin' to do? With minus twenty dollar bills and you can keep the change
All you gotta do is get on down in my range
If you're gonna ask me, am I gonna take it slow?
I said, don't you worry, there's no place I gotta go
You're bad, bad, so bad I'm beggin'
Oh, bad girl, whatcha tryin' to do?
What is the matter with you?
Bad girl, what are you tryin' to do? I'm beggin', please, little lover, stop this carryin' on
Got to get some lovin' before the planet is gone
If you're gonna ask me, am I gonna take you home?
I say, don'tcha worry, there's no place I gotta go
My bad Hey, bad girl, I know why you're bad
But don't ya know, it just makes me glad?
When everybody's gonna put you down
Lookin' for your last friend, I'll be around I'm beggin'
Oh, bad girl, whatcha tryin' to do?
What is the matter with you?
Bad girl, what are you tryin' to do? I'm beggin', please, little darlin', stop this carryin' on
Got to get some lovin' before the planet is gone
When nuclear bomb, they're gonna an' blow it all away
Come on, bad girl, give us some lovin' today
Right here, right now, bad girl
