

# March Of Time

## Arwen

Hours of lust and hours of tears passing by before my eyes  
Today, tomorrow, yesterday one life  
The days of joy, day of sadness come and go to pass me by  
A month, a year, one hundred years, they fly  
Oh, yeah I will be gone to lead another life  
No, this world must stop to turn around with me  
'Cause  
Time marches, time marches  
On without us all, never stops, yes  
Time marches, time marches  
On and on and on, flies eternally  
Times of peace, times of fights, constant movement is our life  
Can't stop no more, not until we die  
We long for more eternity and maybe there's another life  
This one is short, no matter how you try  
Oh, never give up all the hope to lead a good life  
No, don't waste your given time to make things worse  
Time marches, time marches  
One without us all, never stops, yes  
Time marches, time marches  
On and on and on, flies eternally  
Please, please help me see, the best way to be  
Make a change and we live eternally  
No more wasted years, no more wasted tears  
Life's too short to cry, long enough to try  
Time marches, time marches  
On without us all, never stops, yes  
Time marches, time marches  
On and on and on, flies eternally
