Borderline

The Veer Union

I?m tired of being told to bite my tongue,
I wanna scream at the top of my lungs.
Try, to speak, out loud, your silence me but now,
I?ll stand my ground, I?ll let you know that:
I?m tired of being told to bite my tongue,
I wanna scream at the top of my lungs.
It?s like a nightmare but I?m lying awake,
It?s got me thinking that I am borderline.
About to loose my mind
It?s time to face my fear
And then I will make it disappear.
The war in me you set this thing to die,
You set it free I?ll let you know that:
I?m tired of being told to bite my tongue,
I wanna scream at the top of my lungs.

It?s like a nightmare but I?m lying awake,
It?s got me thinking that I am borderline.
About to lose my mind,
It?s time to face my fear,
And then I will make it disappear.
Disappear.
I?m tired of being told to bite my tongue,
I wanna scream at the top of my lungs.
It?s like a nightmare but lying awake,
It?s got me thinking that I am borderline.
About to loose my mind,
And now you will see your time has come,
Pay for all this damage done,
Face my fear and then I will
Make you disappear.
Disappear.
