Anxiety

Goldfinger

So, you've been thinkin' about it
You think that you've got the answer now
And you've been prayin' about it
You'd ask him to remove your fear, right nowSo you'll analyze it
You think you have control
Then you realize
It's time that you let goIt's not your time, yeah
Feel it all and know
It's not your time, yeah
Feel it all and know that this will passSo you can cry about it
The tears can help you heal inside
I know you lost your mind now
And you just tell yourself to hideStill you'll analyze it
You think you have control
Then you realize
It's time that you let goIt's not your time, yeah
Feel it all and know
It's not your time, yeah
Feel it all and know that this will passIt's not your time, yeah
Feel it all and know
It's not your time, yeah
Feel it all and knowIt's not your time, yeah
Feel it all and know that this will pass
Yeah, yeah, know it's not your time
Know it's not your time, yeah, yeah
