

Brief Interviews With Hideous Men

I Set My Friends On Fire

All your marsupial annotations that you carry around
may ring through their ears but to us make no sound
we never asked you to squat on our intricacies of employment
but honestly the harder you squeeze facilitates the enjoyment

oh just look at all the pretty boggling array of punctuation marks at our disposal
slashes dashes and dots of various sorts might even meet our proposal

hot flashes and rashes
i'm feeling particularly pretentious
your vasomotor disturbances
only rev up our engines

dialogue all the shit you want
but make sure to use the biggest font
the louder you speak the more they mention
bold or undefined this will get your attention (x2)

the louder you speak the more that they mention
bold or undefined this will get your attention
