The Suffers

Hold my hand
I'll make those eggs over easy
Just the way you like
You give my hip that grip
That lets me know that you, that you, that you need me
This life doesn't always, always have to be so hard
So why don't we get it right
At the start(Can we) hang a little?
(Just) love a little
(Won't you) hold on to me?
(Please) hang a little?
Love a little?Hold on to me?When I'm looking in the mirror
Trying to point out what's wrong
That's when you walk up
and say you loved me, loved me all along
Life doesn't always, always have to be so hard
So why don't we get it right
At the start
Can we
Hang a little
(Just) love a little
(Won't you) hold on to me?
(Please) hang a little?
Love a little
Hold on to me
Why don't we just go hang? (You know like the way we used to?)
Why don't we just go hang? (You know like the way we used to?)
Why don't we just go hang?
Hang a little
Love a little
Hold on to me
Yeah baby hold on to me
Yes you holdin' me
Why don't you hold on to me?
Yes you holdin' me
Why don't you hold on to me?
Yes you holdin' me
Why don't you hold on to me?
Yes you holdin' me
Yes you holdin' me, holdin' me, holdin' me...Why don't we just go hang? (You know like the way we used to?)

Why don't we just go hang? (You know like the way we used to?)

Why don't we just go hang? (You know like the way we used to?)

Why don't we just go hang?
