

# Change the World

Weezer

You want it  
You got it You flaunt it and  
Get your feet on the ground  
And love me right now You like it  
You hate it You bought it and  
Glued your butt to the sound  
And love me right now You couldn't change the world  
To fit your little thing, ah... uh You couldn't change the world  
To fit your little thing, ah
