New #2

Avail

I don't think you heard A word I said That's fine it wasn't exactly what I meant We made a lot of Mistakes this time Imagining distance working
Are you willing to take it?
I have given all that I can give you have too And still we pretend that This isn't all just a Waste of time It's sublime and We are kindred
Are you willing to take it?
I'll scream so loud I won't make a sound Can you admit defeat? We'll burn the last of This to the ground Let's drop the seed And let it be
Carefully trust all that's Newly found somtimes We're hard to believe We'll burn the last of this To the ground Let's drop the seed And let it be
It may sound simple When the last word Is said and no hurt Is shown on the Responding end End means time to end all (End is defeat) End means time to end all Defeat
And if silence is all That you hear it's not Intended you're so far From near that voice Only carries but so Many miles praise Denial and persistance Working
Are you willing to take it?
