

Reverence - Living in the Heart

Epica

An overactive mind
Where a thousand thoughts come floating by
Will not be able to slow down at times
Don't be afraid
Live in the now
Enjoy simplicity
Avoid incentives that will make you blind
Don't let it burn you down
Live in the heart
Experience the now
To really know yourself
Ignore your mind and find yourself again
Life is always challenging
To really find yourself
You can't be blind to signals you obtain
And gain
Thoughts are slowly changing here
Here in the now
If you identify with your own heart
Will change your views
And make you feel at home
You're not your thoughts
Observe how they can be duplicity
Don't follow thoughts that make you drift away
Don't let them pull you down
Live in the heart
Experience the now
To really know yourself
Ignore your mind and find yourself again
Life is always challenging
To really find yourself
You can't be blind to signals you obtain
And gain
Thoughts are slowly changing here
Reward Yourself
To really know yourself
Ignore your mind and find yourself again
Life is always challenging
To really find yourself
You can't be blind to signals you obtain
And gain
Thoughts are slowly changing
To really know yourself
Ignore your mind and find yourself again
Life is always challenging
To really find yourself
You can't be blind to signals you obtain

And gain
Thoughts are always ranging now
