

# Spy (ft Wyclef Jean)

Shakira

Slow motion  
Blinds are see through  
Let your mind go  
Imagine that I kiss you Turn off the lights and open up your eyes now  
You can take a glimpse into my soul for tonight Do you got the heat off girl? (Yes I do)  
Can you turn up the temperature? (You bet I could)  
Colombian with a swagger (yes I am) Whatever it takes to make this thing work we gonna  
Whatever it takes to make this thing work we gonna There's a spy by my window (yup)  
I know it's you (uha)  
You like to keep an eye on me (I do)  
I know you like to keep an eye on me There's a spy by my window  
I know it's you (it's me)  
Won't you like to keep an eye on me  
I know you like to keep an eye on me (I do girl)  
Keep an eye on me  
But if you want it got to let it be I know you  
Dream about me  
And it turns me on to think about it  
This is the finest game  
It ain't even got a name  
I just wanna see how far it takes us tonight Do you got the music on girl? Yes I do  
Can you get a little closer? You bet I could  
Colombian with a swagger, yes I am Whatever it takes to make this thing work we gonna  
Whatever it takes to make this thing work we gonna  
Whatever it takes to make this thing work we gonna There's a spy by my window  
I know it's you (it's me)  
You like to keep an eye on me  
I know you like to keep an eye on me (I do girl) There's a spy by my window  
I know it's you (it's me)  
Won't you like to keep an eye on me  
I know you like to keep an eye on me (I do girl)  
Keep an eye on me  
But if you want it got to let it be When the dog's away that's when the cat's play  
Yup yup you'll be my girl, I'll be the spy  
Like the James Bond flick girl I'm ready to ride When the cat's away that's when the mouse play  
Yup yup you'll be my girl, I'll be the spy  
Like the James Bond flick girl I'm ready to die, die die There's a spy by my window  
I know it's you  
You like to keep an eye on me

I know you like to keep an eye on me There's a spy by my window

I know it's you

Won't you like to keep an eye on me

I know you like to keep an eye on me

Keep an eye on me

But if you want it got to let it be Lipstick's on

Stockings up

Skirt's short

Heels are high

Take your time

Buckle up Close your eyes and enjoy the ride

Close your eyes and enjoy the ride

Close your eyes

Close your eyes and enjoy the ride
