Love Is In The Air

Milk & Sugar

When I talk to you my love
I like it when you understand
When you want me close to you
I like to be as close as I canWherever we go together
This is how I wish it would be, baby
If I would speak and a word it all
They would know that you're in love with me'Cause I've had
Long days, cold nights
Need love to make me feel right
Long walks, goin' nowhere
Doesn't matter as long as you're thereLong days, cold nights
Need love to make me feel right
Long walks, goin' nowhere
Doesn't matter as long as you're thereIt's been a while
Since I've had someone to care
Now the wait is over
'Cause I feel love is in the airIt's been a while
Since I've had someone to care
Now the wait is over
You know love is in the airI'm closin' in on a special love
And nothing's gonna get me down
I wanna share everything with you
I enjoy having you aroundWhatever goes on with me
There would never be a thing to lie
Rough times don't seem to turn back
When I know that you are by my side'Cause I've had
Long days, cold nights
Need love to make me feel right
Long walks, goin' nowhere
Doesn't matter as long as you're thereLong days, cold nights
Need love to make me feel right
Long walks, goin' nowhere, baby
Doesn't matter as long as you're thereIt's been a while
Since I've had someone to care
Now the wait is over
'Cause I feel love is in the airIt's been a while
Since I've had someone to care
Now the wait is over
You know love is in the airIt's been a while

Since I've had someone to care
Now the wait is over
'Cause I feel love is in the airIt's been a while
Since I've had someone to care
Now the wait is over
You know love is in the airLong days, cold nights
Need love to make me feel right
Long walks, goin' nowhere
Doesn't matter as long as you're thereLong days, cold nights
Need love to make me feel right
Long walks, goin' nowhere
Doesn't matter as long as you're thereIt's been a while
Since I've had someone to care
Now the wait is over
'Cause I feel love is in the airIt's been a while
Since I've had someone to care
Now the wait is over
You know love is in the air
