Chinatown

Destroyer

You can't believe
The way the wind's talking to the sea.
I heard that someone said it before,
I don't care,
I can't walk away, I can't walk away...
In Chinatown...
The wind and the rain:
To your detriment you try to explain
A government swallowed up in the squall.
I can't walk away, at all,

In Chinatown...
You can't believe,
Though I'm sure somebody's said it before:
I know you and I know the score...
I can't walk away, you can't walk away...
I can't walk away, you can't walk away...
I can't walk away, you can't walk away...
I can't walk away, you can't walk away...
I can't walk away...
