

Slow Motion Sickness

navarro, dave

Continued the waiting, tearing at the wing
(I lost a friend)

A terrible plaything broken on a swing
(I lost a friend)

Kept boxes of old days when you were afraid
Alone and nothing thought I had something
To ease the pain of hurting you
I just can't take this although I've made this
The evening that I'm moving through
Forever to find you severing the new
(I lost a friend)

I wanted to wake you someone that I knew
Don't even know you, can I go with you?
Can't say I need anything

Love this depression another session
There's nothing more that I can bring

I am writing this down
(I have never lived before)
I am writing this down
(I have never lived before)

Slow motion sickness, why should I fix this?
Shaken by the sight of me

The painted babies and run late ladies
Brought out a different side of me

I am writing this down
(I have never lived before)
I am writing this down
(I have never lived before)

I am writing this down
(I have never lived before)

I am writing this down
Sometimes, sometimes

I don't feel so good, I don't feel so good
Sometimes, sometimes

I don't feel so good, I don't feel so good
Sometimes, sometimes

I don't feel so good, I don't feel so good
Sometimes, sometimes

I don't feel so good, I don't feel so good

Sometimes, sometimes
I don't feel so good, I don't feel so good
