Back and Forth

Audiovent

Today I hear my anger
And it's screamin' at me
Your words attack my senses
And make me screamLooking back and forth at you
Should I, should I
Waste my time now?
Looking back and forth at you
Should I, should I
Pay no mind now?Today inside my eyes
I'm clenching my fists
My hate it burns inside of me
Inhuman thoughts cloud my mindLooking back and forth at you
Should I, should I
Waste my time now?
Looking back and forth at you
Should I, should I
Pay no mind now?What did I ever do
To deserve this from you?
When will this fade out?
And when you eat your words
Will you still never learn?
Don't let words get aroundLooking back and forth at you
Should I, should I
Waste my time now?
Looking back and forth at you
Should I, should I
Pay no mind now?
