Around Me

Jennifer Knapp

If all the worlds were scattered
And I found my way to here
Then how can I love you
The way that I love you?Big Sky and a silver moon
The apple of Your eye
How can I explain it?
How can I maintain this?My tenderness evolving
Your faithfulness around me
Around me
Angels in their glory
Regaling of Your story around me
Around meOne big bang, an atom I?
Oh, how'd I come to be?
Whittle from a bone
Is harder to believeHope in things I can not see
I know that you will come
Seasons quickly turning
Quickly You're returningTreat me with an alibi
So all my friends may wonder why
I have immortal favor
The king he gives me favor
