

The Sum of All Fears

Cultus Sanguine

Through the unseeing eyes
of a worm like a human
the pure light of fear
destroys all the truths
truths man created
fastly destroyed
raped by falsehood
covered by shame You only have
your eyes to cry
and your life to suffer with As an unreachable point
built upon all lies
the sum of all fears displays
displays man's ruin
displays the fall of life
as a signal for the coming
gloomy times of pain
freezing life and dreams
tomorrow never comes
yesterday's forgotten
and gone Standing astonished
depressed and confused
the sum of all fears
a blade upon mankind
