

Perfect Storm

[Cardiknox](#)

Just tell me that you want me
Yeah, say it to my face
Cuz I remember when we let our clothes hit the floor
And we laid in bed with hours to wasteThe silver sun is fading
Tell me we still have a chance
There's a light on the horizon
So I'm running for you
You see me coming for you
Cuz the hot hot heat won't stop[Chorus]
We got the push and the pull
But I can't let you go
You got me tongue tied and twisted
Every time you say no
So give me what I'm waiting for
We come together like a perfect stormWon't you come a little closer?
I'll let you run right through my veinsThe neon lights are burning
Maybe we still have a chance
Yeah, the tides are always changing
So I'm running for you
You see me coming for you
Cuz the hot hot heat won't stop[Chorus]Clouds come rolling in the darkness
You're my dirty sweet weakness
Feel the thunder and the lightning
Underneath the diamonds
We keep coming back for more [x2][Chorus]
