

## Strength In Numbers

## In Fear And Faith

The emptiness that burns inside  
See how they run, see how they hide  
All the animals come out at night  
All the animals come out at night  
Just a slave to the city  
To indulge in the pity  
The opaque substitution  
For a real revolution  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
The human use of human beings  
With dead emotions you fail to see  
The adrenaline, it burns a hole  
The adrenaline, it burns a hole  
Just a slave to the city  
To indulge in the pity  
The opaque substitution  
For a real revolution  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers

Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us  
Strength in numbers  
No one will come between us
