

New Freezer

Lady Leshurr

[Hook: Lady Leshurr]

I be moving way too cold

They need a New Freezer

New year got a new flow

It's a new Leshurr

Look girl you need to watch your tone, yeah yeah

Who's this new idiot

You will get eaten like cold pizza

When you hear the bass you gonna need a new speaker, trust

[Verse 1: Lady Leshurr]

Yeah I'm becoming a new leader

Put them to the side no salad no Caesar

I will go gorilla on rappers and you Caesar

And I got the animal flow the zoo keeper

Who's deeper?

Already know who's realer

Becar I'm a mom for dem Mother Teresa

Take over the continent with no visa

Man you don't ball no more you're Alan Shearer

Tell a gyal shush

Bible give her that book

Now I got them all shook

If a gyal wanna pipe up

I will just give her that look

I'm dominating

It's not me that you wanna hate kid

Got them ovulating

Leave em discombobulated

So don't pretend you can't see me

When I pull up on you like beep beep

Be like what you saying though really

You're like, Oh no, I didn't mean it

Start scattering

Ghetts flow bagga gyal panicking

This fish there might just get a battering

Savaging

Deliver the box no packaging

You will get dressed real quick no mannequin

[Hook: Lady Leshurr]

I be moving way too cold
They need a New Freezer
New year got a new flow
It's a new Leshurr
Look girl you need to watch your tone, yeah yeah
Who's this new idiot
You will get eaten like cold pizza
When you hear the bass you gonna need a new speaker, trust[Verse 2: Lady Leshurr]
Queen of Manor
They don't want no smoke or no grabba
They won't find nobody badder
So now they like
We can't stand her
Don't think ya bad in your Louis bandanna
'Cause I'll leave it leaning Julez Santana
Can't touch this MC
Hit with the hammer
I designed her
Dolce & Gabbana
And I'm giving them punchlines
Wanna hold hands but it's not a romance
I will erase her
She will get rubbed but it's not a slow dance
Already gave you a chance
Farce gyal slow down It will end quick
I'm a stay humble it's in my DNA
But they don't want me to turn into Kendrick
'Cause I send big shots
Hold up wait
Yeah I just bought a new wrist watch
Big rocks
You can't even see it go tick tock
I can be who I wanna be
Dun know I keep it old school like wallabies
No, we don't get along I'm into astrology
Got my money up living like I won the lottery
And they know they owe me apologies
Every day they wanna pree me
Girl, you've gotta be kidding honestly
What a chief
'Cause I body beats
Steal it I'm a thief, robbery
Lard gad
Everybody knows I got the Vybez, Kartel
Every flow mi drop mek em shock startle

Gyal will get passed round like a Parcel
Ah lie mi ah tell?
Ask Shantel[Hook: Lady Leshurr]
I be moving way too cold
They need a New Freezer
New year got a new flow
It's a new Leshurr
Look girl you need to watch your tone, yeah yeah
Who's this new idiot
You will get eaten like cold pizza
When you hear the bass you gonna need a new speaker, trust
