

You're My Favorite

Gwen Stefani

I'm pretty simple but I have explored
Thought I had found it but I wasn't sure
Always a feeling that there could be more, could be more But I've been there, done that, buyed it, tried it
More than I can count
Shook it, stirred it, broke it, smoked it
More than I can count Oh, but out of everything, you're my favorite
I tried a lot of things, but you're my favorite
Oh, I think I worked this out
Finally worked this out
Cause out of everything, you're my favorite The way you kissed me wasn't typical
Take me out of my body, something spiritual
Think I need seconds, maybe thirds or fourths, oh But I've been there, done that, buyed it, tried it
More than I can count
Shook it, stirred it, broke it, smoked it
More than I can count Oh, but out of everything, you're my favorite
I tried a lot of things, but you're my favorite
Oh, I think I worked this out
Finally worked this out
Cause out of everything, you're my favorite Momma can I keep him?
I promise I'll take care of him
Momma can I keep him?
I promise I'll take care of him But I've been there, done that, buyed it, tried it
More than I can count
Shook it, stirred it, broke it, smoked it
More than I can count Oh, but out of everything, you're my favorite
I tried a lot of things, but you're my favorite
Oh, I think I worked this out
Finally worked this out
Cause out of everything, you're my favorite
