

# Closer to the Sun

## Heart

Excuse me friend  
Can you tell me when  
Did I sign up for this race  
There's not an end  
And no one wins  
Yet you fight to keep the pace  
Maybe I'll find a home in the heavens  
Hitch a ride on a shooting star  
[Chorus]Leave this place for outer space  
We can rent a little house on Venus  
And get closer to the sun  
There's always light  
There is no night  
We can watch the earth revolve  
There's only friends

And innocence, there'd no conflicts to resolve  
Leave behind everything you think matters  
Don't delay once you're there you will see  
[Chorus>Welcome aboard, get comfortable  
Your maiden journey's just begun  
Just close your eyes  
Enjoy the ride  
We're getting closer to the sun  
[Chorus]Excuse me friend  
Can you tell me when  
Did I sign up for this race
