

The Fire Thief

Hem

Wouldn't be the first time
Love made a fool of me
Wouldn't even care
But now you're here to see It comes as no surprise
Just leave the light on What I wouldn't give
If you could have it all
The sun that's going down
The bed that breaks the fall The cradle and the bow
So you can take comfort now
You can take comfort now Sometimes a heart can break
And make it's own relief
The way a cold dark night
Invites the fire thief He wants to show us how
So we can take comfort now
We can take comfort now
We can take comfort now Leave the light on
