

# Every Night I Say A Prayer

## Little Boots

Love is darkness blinded by the light  
Let it lead you, listen for the cry  
I will find you, every time I turn you're there  
(You're there)

I have seen into the future  
I want you to take me there  
I have seen into the future  
Every night I say a prayer  
Every night I say a prayer  
Hoping for forgiveness  
We all make mistakes  
I wanna walk beside you  
I've gotta keep the faith  
Now that I found you  
Never gonna let you go  
I have seen into the future  
I want you to take me there  
I have seen into the future  
Every night I say a prayer  
Every night I say a prayer  
Oh, oh  
Every night I say a prayer  
Every night I say a prayer

Oh, oh  
Every night I say a prayer  
Every night I say a prayer  
I know where we're going  
I know where we're going  
I have seen into the future  
I want you to take me there  
I have seen into the future  
Every night I say a prayer  
Every night I say a prayer  
Oh, oh  
Every night I say a prayer  
Every night I say a prayer  
Oh, oh  
Every night I say a prayer

Every night I say a prayer  
Oh, oh,  
I want you to take me there  
I know where we're going  
Oh, oh,  
I want you to take me there  
I know where we're going
