

# Shock Horror

## The Creation

(Kenny Pickett/Eddie Phillips) Newspapers, TV  
Junkmail through my door for free  
Go read more, switch on  
More lies for the citizen Tomorrow, today  
I gotta read what the paper say  
In the mag "Shout", read it on  
"Mother gives birth to a freestone son" Shock Horror, what can you do?  
It's in the news, so it's gotta be true  
Shock Horror, what can you say?  
That's life in the UK today  
Too much, too soon  
They found a plane upon the moon  
Gay bikers on drugs  
And in the night drink Teddy Bear shots Shock Horror, what can you do?  
It's in the news, so it's gotta be true  
Shock Horror, what can you say?  
That's life in the UK today What can you do?  
What can you say?  
That's life  
In the UK today Shock Horror, what can you do?  
It's in the news, so it's gotta be true  
Shock Horror, what can you say?  
That's life in the UK today  
Shock Horror, what can you do?  
It's in the news, so it's gotta be true  
Shock Horror, what can you say?  
That's life in the UK today In the UK today!
