

# Barren Egg

## Jill Sobule

Another barren egg  
Another month gone by  
Just more time to do as I please  
No one's watching over meDon't have to make my bed  
Can lay in it instead  
No one there to bother me'Cause I'm free  
It's just me  
I'm free  
Nobody but meAnother friend got caught  
Another friend, knocked out  
Another friend with nothing in common with meAnother night with you  
Spending time with you  
Still alone 'cause you're the freest man I've ever knownI'm free  
It's just me  
I'm free  
Nobody but meI'm free, save me  
I'm free as the snow as it melts away  
Free as the wind on a real calm day  
Free as the moth on my windowpane  
Like you, like meAnother barren egg  
Another year gone by  
Just more time to do as I please  
No one's tugging at my sleeveI can be as rude as I please  
No one's gonna fire me  
Floating in this endless seal'm free  
It's just me  
I'm free  
Nobody but meI'm free  
Help me  
I'm freeAnother barren egg
