Nightlight

Castledoor

Oh whoa, leave your nightlight on
You don't have far to go
Oh whoa, leave your nightlight on
You don't have far to goOut the door, down the hall
That is all
Down the hall, down the stairs
Pretty soon, you'll be thereOh whoa, leave your nightlight on
You don't have far to go
Oh whoa, leave your nightlight on
You don't have far to goDown the stairs
Take your time, don't be scared
You'll be fine, nothing's changed
In the dark, it's all the same
